# 1.0 Test strategy

**A variety of tests will be conducted for the duration of the project in various stages:**

**Unit Tests**

- All business-heavy classes will have full unit testing.
- Unit tests are run automatically with every push to the repository.
- Unit tests assess all flows.

**Component Tests**

- Complicated classes that use multiple classes will have component tests.

## Test cases

ID	US	Name	Precondition	Test data	Expected result	Result	Note
TC-01	US-09	Sign up.	N/A	Email: <a href="mailto:Godfrey@gmail.com">Godfrey@gmail.com</a> Password: Godfrey1234 Confirm password: Godfrey1234 First name: Godfrey Last name: Ogbeide	Logs the user on to the website.		
TC-02	US-09	Sign up with the wrong email input.	N/A	Email: <a href="mailto:Godfrey@gmail.com">Godfrey@gmail.com</a> Password: Godfrey1234 Confirm password: Godfrey1234 First name: Godfrey Last name: Ogbeide	This email is invalid.		
TC-03	US-09	Sign up with the same email.	The email that the user input is already in the system.	Email: <a href="mailto:Godfrey@gmail.com">Godfrey@gmail.com</a> Password: Godfrey1234 Confirm password: Godfrey1234 First name: Godfrey Last name: Ogbeide	This email already exists.		
TC-04	US-09	Password not 8 characters	N/A	Email: <a href="mailto:Godfrey@gmail.com">Godfrey@gmail.com</a> Password: Godfrey1234 Confirm password: Godfrey1234 First name: Godfrey Last name: Ogbeide	Password needs to be 8 character or more.		
TC-05	US-09	Confirm password not the same as password	N/A	Email: <a href="mailto:Godfrey@gmail.com">Godfrey@gmail.com</a> Password: Godfrey1234 Confirm password: Godfrey1234 First name: Godfrey Last name: Ogbeide	Confirm password is not the same as password		
TC-06	US-10	All the empty field are required	N/A	Email: Password: Confirm password: First name: Last name:	Email is required. Password is required. Confirm password id required.		

					First name is required. Last name is required.
